Academic division:

Academic division is responsible for teaching medical students in accordance with the curriculum laid down by Bangladesh Medical and Dental Council for MBBS degree from Shahjalal University of Science & Technology, Sylhet. The teaching doctrine employed by the college is based on the principle that provides a structured process of institutional teaching, which combines continuity and candour with an absolute obsession for perfection. The aim being to turn each and every medical students into medical men and women of advanced knowledge and expertise capable of matching the challenge of 21st century in terms of handling suffering humanity.

About Sylhet

Nestled in the picturesque Surma Valley amidst scenic tea plantations and lush green tropical forests, greater Sylhet is a prime attraction for all tourists visiting Bangladesh.

Sylhet is known for its cane products and produces tea, fertilizer, and liquefied petroleum (propane) gas. There are also several handicraft cottage industries, including mat weaving and bamboo work. Tea estates southeast of Sylhet provide most of Bangladesh's yield.
