NANJING MEDICAL UNIVERSITY

BS Program

in Rehabilitation Medicine

The School of Rehabilitation Medicine, Nanjing Medical University (NMU) was established in October, 2014, tracing its root to the Department of Rehabilitation Medicine of the First School of Clinical Medicine, Nanjing Medical University. The school is featured by its significant innovation and youth vitality. The program of Rehabilitation Therapy has been approved to be one of the first groups of admission programs by the Ministry of Education of the People's Republic of China. In 2009, the school was selected as the national construction site of special programs.

The school attaches great importance to talent training and continuously encourages teaching reforms and innovations so as to strengthen the construction of teaching conditions and teaching staff. The school now has taken a lead in the nation to perfect training program, teaching syllabus, teaching models, and teaching standard and norms, which has become a benchmark of teaching for rehabilitation therapy. At present, the school has several laboratories together built by the central and local government and 10 teaching laboratories with advanced equipment's, which has become a demonstration centre of experimental teaching for rehabilitation therapy. Besides, the school also has more than 10 domestically renowned Class A tertiary comprehensive hospitals with advanced teaching conditions, excellent teaching staff and perfect discipline construction, and high-level teaching and practice bases of Class A tertiary rehabilitation hospitals. In particular, as the main discipline of the school, rehabilitation medicine represented by the Centre of Rehabilitation Medicine of the First School of Clinical Medicine of NMU has always kept the first place on the National Best Hospital Ranking in 2012-2014 released by the Hospital Management Institute of Fudan University.

NANJING MEDICAL UNIVERSITY

On the other aspect, the school has always been broadening international vision for the education of rehabilitation medicine and keeps a close link with the World Federation of Occupational Therapists (WFOT) and World Confederation for Physical Therapy (WCPT). In recent years, the school has established extensive cooperation and exchanges with overseas higher education institutions such as Hong Kong Polytechnic University (HKPU), University of Dayton, Creighton University (whose program of occupational therapy ranks first in the U.S.), University of Sydney, University of Queensland and University of Manchester. Many students from the school have obtained opportunities to study in the United States in exchange programs.
